

Project #2
Due Sunday 2/8/2015 by 11:59 PM
No delay is accepted

For each day late submission 2 points penalty is incurred.
Post your answer in the folder *Project2 on the blackboard*.
If you have any question please email me at mbadii@pace.edu

Note: Do not email me your project for grading. Only email your project to me when you need help and have questions. In this case attach your project and describe what your questions are.

For this week project I am asking to implement two scripts from the exercises in lecture

2. Copy and paste your program under the word: **Answer**.

1. Write a JavaScript embedded in an HTML document for exercise 1.

Answer:

```
<html>
<head>
    <title>Project 2</title>
</head>
<body>
    <script type="text/javascript">
        //Exercise 1 below:
        document.write("<span style =\"color: blue;\"> This line is
blue</span><br>");
        document.write("<b>This line is bold</b><br>");
        document.write("<i><b>This line is italic and bold</b></i><br>");
        document.write("<i><b><span style = \"color: red;\">This line is italic,
bold and red </span></b></i>");
    </script>

</body>
</html>
```

2. Write a JavaScript embedded in an HTML document for exercise 3.

Answer:

```
<html>
<head>
    <title>Project 2</title>
</head>
<body>
    <script type="text/javascript">
        //Exercise 3 below:
```

```
        alert("Network programming is fun. \tDo you have any question? \nEmail
me.");
    </script>

</body>
</html>
```
